

IOWATER Resupply Policy

Due to the IOWATER program's need to justify the expense of resupplying materials, we have created "IOWATER Program Criteria for Receiving Additional Monitoring Equipment and Supplies."

To receive additional IOWATER monitoring supplies, you must submit a minimum of **three chemical/physical assessments within the past 12 months from the date of your request.**

However, it is the policy of the IOWATER program to encourage volunteers to monitor. If you wish to receive additional supplies or replace expired materials and do not meet the above policy, please answer the following questions to help determine your resupply eligibility. Decisions will be made on a case-by-case basis and IOWATER staff may contact you to discuss your individual situation.

1. Will this equipment be used for educational purposes? Yes ☐ No ☐
2. Are you monitoring as part of a "special project"? Yes ☐ No ☐
 - a. Enter the name of the project and the name of the project contact (examples: Walnut Creek Watershed, iGISST): _____
3. Are you a returning volunteer? (who has been inactive for more than 1 year) Yes ☐ No ☐

All supply requests will be handled under the sole discretion of IOWATER staff and may be contingent upon availability of requested materials. The IOWATER program may discontinue this policy at any point in time, especially due to financial constraints.

If you have expired equipment that you are no longer using please contact the IOWATER Coordinator at Mary.Skopec@dnr.iowa.gov to arrange for drop off/pick up.

Equipment Request Form

Name: _____ IOWATER ID: _____ Site Number(s): _____

Address: _____ City: _____ State: _____ Zip: _____
